

Commission 35 business meeting at the GA

To all members of C35

Dear Colleagues,

I invite you to the Commission Business meeting during the IAU General Assembly in Prague. The meeting will take place on August 16 (Wednesday) at 9:00 in the Club B room.

So far, we have only two points in the agenda:

1. My report on various organizational activities of the Commission during the 2003-2006 term,
2. Virginia Trimble's presentation "Presence of binary stars in the current astronomical literature".

There is still a room for more presentation. If any of you wants to talk, please send me an e-mail before August 12.

With best regards,

Wojtek Dziembowski,
President C35
